

Passing in Review

Where Centurion leads, others must follow.

Once again, Centurion draws the lines that distinguish a leader from its competition. Drawing on the best of two worlds, Centurion has combined the engineering and production genius of Japan with the brilliant design concepts of Europe.

Drawing on years of experience, Centurion has again proven that everything must begin with intensive planning; that the entire spectrum of biking needs must be considered. As a result, Centurion has developed what must be considered the most well thought-out group of bicycles available today. No detail of function or appearance has been overlooked. From frame angles, fork rakes and wheel base to the critical selection of individual components, each Centurion bicycle is designed to fulfill its intended function. Perfectly. As for appearance, Centurion presents the world's first group of individually color-coordinated bicycles. Yet with all their engineering and design value, Centurion bicycles are surprisingly economical to purchase. As you examine the detailed quality of each Centurion bicycle presented here, we think you will draw one unmistakable conclusion: Your Needs as a biking enthusiast have never been served quite so well.

Centurion
Where we lead, others must follow

Centurion Semi-Pro

Declaring Supremacy

Designed for the true racing bicycle connoisseur. Its extremely lightweight 10-speed racing configuration offers exceptional handling and response. With its superb componentry, there's little difference between the Centurion Semi-Pro and a handmade, custom machine. Except the price.

Frame Sizes: 21 1/2", 22 1/2", 23 1/2", 24 1/2", 25 1/2"

Colors: Pearlized Yellow with pinstriping

Pearlized Cobalt Blue with pinstriping

Sunshine Pro-Am small flange, quick release hubs with precision ground races for minimal friction. Stainless steel spokes.

SR New Royal Extra Super Light stem. World Custom engraved handlebar with cloth tape for hand comfort, moisture absorption. Tange professional headset.

Gran Compe 500 side pull brakes for positive response, all-weather braking action. Chrome sloping fork crown, chrome head lug add style. 700c 19.6mm wide alloy rims and 700c Centurion 25mm 100 psi skin tires, for racing performance.

Chrome wrap-around seat stays for strength. Brazed-on seat binder lug with chromoly dual allen head binder bolt for positive locking.

Sugino Super, Mighty Victory cotterless forged aircraft alloy crank set, for perfect chain alignment, minimum friction. Forged aluminum pedals with chromoly spindle, and precision bearing races. Toe clips, toe straps. Pro style brazed-on water bottle holder.

Suntour Cyclone Derailleur system. Most advanced system available. Unique slant parallelogram mechanism enables pulleys to shift diagonally at same angle as sprocket during gear change, retaining uniform clearance between pulleys and sprocket. Result: More stable driving, easier shifting. Suntour's new Tran-Z chain and Tran-Z cluster dramatically improve shifting speed.

Centurion Pro-Tour

Taking Highest Honors

Designed for the long-range touring enthusiast. As the world's most distinguished production touring machine, it is engineered to accommodate every on-tour need, from complete tour accessories to the most versatile 15-speed gearing available.

Unique Dia-Compe 610-C brazed-on center pull brakes for extremely positive 2-position stopping. Handsome chrome head lugs, chrome fork crown. 27" 25mm 100psi skin tires mounted on extremely lightweight 19.6mm alloy rims for superb handling.

Triple cotterless alloy crank set for 15-speed versatility that accommodates 28 through 54 tooth sprockets gear range. Water bottle holder for on-tour convenience. Forged aluminum pedals with chromoly spindle and precision bearing races.

Chrome wrap-around seat stays. Special seat binder tube with chromoly dual allen head binder bolt for strong, positive locking. Brazed-on rear brake cable hanger with stop. Laprade type alloy fluted seat post, lightweight, extremely easy to adjust.

Suntour forged vertical rear drop-outs with dual mounts for pack and mud guard. Suntour Cyclone GT Derailleur system allowing chain removal from Derailleur cage without removing chain link. Suntour Tran-Z gold cluster and chain.

Frame Sizes: 21 1/2", 22 1/2", 23 1/2", 24 1/2"

Colors: Pearlized Maroon with pinstriping

Pearlized Silver with pinstriping

Centurion Super Elite

Outdistancing the Competition

Designed for the upcoming racing enthusiast, the Super Elite is a direct descendant of Centurion's

Semi-Pro. To join the racing class, you won't find more built-in value for the price. Anywhere.

Suntour Vx small flange, quick release hubs, front and rear. Chrome forged fork end. Stainless steel spokes.

Cotterless alloy cranks with one-piece forged spider. Interchangeable inner and outer sprockets allow versatile "customized" gear ratio changes. Alloy rate-trap pedals with toe clips and straps.

Forged concave seat stay for strength. Specially designed seat binder tube with chromoly allen head binder bolt. Laprade type fluted alloy seat post.

Suntour Cyclone GT Derailleur system with Suntour Tran-Z cluster and chain. Inner edges of chain's outer link plate are deeply scalloped; so chain operates at a sharper angle, engaging cluster teeth more quickly for greater shifting speed.

Frame Sizes: 21" 23" 25"

Colors: Pearlized Silver with pinstriping

Pearlized Cobalt Blue with pinstriping

Centurion Elite

Holding the advantage
 Designed for the entry level racing enthusiast, the Elite is a legitimate racing machine fashioned after the Super Elite. It is a high performance machine with quality components and frame technology at a moderate price.

Suntour Cyclone GT Derailleur system with Suntour Train-Z cluster and chain. Inner edges of chain's outer link plate are deeply scalloped; so chain operates at a sharper angle, engaging cluster teeth more quickly for greater shifting speed.

Forged concave seat stay for strength. Specially designed seat binder tube with chromoly allen head binder bolt. Laprade type fluted alloy seat post.

5 arm cotterless alloy cranks with interchangeable inner and outer sprockets for versatile, customized gear ratio changes. Alloy rat trap pedals with toe clips and straps.

Dia-Compe 500-C forged alloy side pull brakes, with quick release mechanism for extremely positive braking. Advanced fork design with chrome crown, 27" x 19.6mm alloy rims. Centurion high performance 27" x 250 gram 2.5mm 100 psi skin tires.

Sunshine small flange quick release hubs front and rear. Forged fork end.

Frame sizes: 21", 23", 25"

Colors: Pearlized Maroon with pinstriping

Pearlized Cobalt Blue with pinstriping

Centurion Super Le Mans

Covering New Ground

Designed for the dual-purpose
enthusiast who wants a highly responsive
12-speed racing machine, yet geared
for touring capabilities.

Dia-Compe 500-Q forged alloy side-pull
brakes with quick release mechanism.
Advanced fork design for strength.
Forged crown for racy, good looks.
Centurion 27" 250 gram 25mm 100 psi
skin tires for lightweight roadability.

5-arm cotterless alloy cranks with inter-
changeable inner and outer sprockets for
easy gear ratio changes. Professional style
aluminum pedals by MKS.

Forged concave seat stay. Specially
designed seat binder tube with chromoly
allen head binder bolt. Alloy seat post.

Suntour's new VX Derailleur system with
gold Tran-Z chain and gold 6-speed
freewheel. New cog design is as narrow as
a normal 5-speed. Teeth are sharply tipped
and "zigzagged" to fit each link plate
precisely to enable quick, smooth speed
changes.

Frame Sizes: 19" 21" 23" 25"

Colors: Gloss Black with pinstriping

Pearlized Silver with pinstriping

Pearlized Maroon with pinstriping

Centurion Le Mans

Standing Alone

Designed for the 12-speed enthusiast who needs enough versatility for short-range touring, occasional long-range touring and day-to-day commuting. Modeled after the Centurion Elite, an exceptional production machine in every detail of design and finish.

Suzue quick release alloy small flange hub. Lightweight, less friction. Forged fork ends for strength.

Cotterless alloy crank set for lightweight strength. Butted frame tubes also for lightweight strength. Self-balancing pedals stay in riding position.

Custom design lug, chromoly dual allen head seat binder bolt for positive locking. Brazed-on rear brake cable hanger for positive adjusting, reduction of cable friction. Forged concave seat stay for strength and European good looks.

Suntour's new Vx Derailleur system with gold Train-Z chain and gold 6-speed freewheel. New cog design is as narrow as a normal 5-speed. Teeth are sharply tipped and "zigzagged" to fit each link plate precisely to enable quick, smooth speed changes.

Frame Sizes: 19", 21", 23", 25", 26 3/4"
Colors: Pearlized Silver with pinstripping

- Pearlized Cobalt Blue with pinstripping
- Pearlized Maroon with pinstripping (Men's frame style only)
- Pearlized Rose with pinstripping (Mixte frame style only)

Ladies' Mixte in touring or racing style.
Frame Sizes: 19", 21", 23"

Cotterless alloy crank arms, 5-pin chain rings for lightweight strength. Self-balancing pedals designed for minimal friction.

Dia-Compe forged alloy center pull brakes for positive stopping action. Centurion 85 psi high pressure gumwall tires for roadability.

Convenient dual-position brake levers. Alloy randonneur handlebars for more positions of comfort. Color-coordinated cloth tape. Brazed-on cable guides reduce cable friction.

Quick release forged alloy large flange hub for strength, lightweight and easy wheel removal.

Centurion Omega

Commanding Attention
Designed for the enthusiast who wants the versatility of Centurion's Le Mans, but also needs economy without giving up quality.

Frame Sizes: Men's 19", 21", 23", 25", and 18" w/26 x 1 1/4 wheels
Colors: Pearlized Silver with pinstriping

- Pearlized Cobalt Blue with pinstriping
- Pearlized Maroon with pinstriping

Forged cotterless crank arms with 5-pin rings for added strength.

Convenient dual-position brake levers. Randonneur handlebars for more positions of comfort. Color-coordinated vinyl tape. Stem mounted shift levers.

Centurion Sport DLX

Keeping Command
Designed for the budget-minded enthusiast who demands quality and value in a general-purpose bike.

Frame Sizes: Men's 19", 21", 23", 25"; 19" Ladies
Colors: Metallic Red

- Metallic Blue
- Metallic Silver
