Light & Bright

Weight Beam

Mini Size "Dynapower" Bicycle Lamp

Mini-size bicycle lamp with powerful beam. Lightweight, low torque dynamo for reduced pedaling effort.

Can be used on any tire without tire damage. Designed to match sporty bicycles in performance and style.

FEATURES

- Lightweight, mini-size bicycle lamp with powerful beam.
- Compactly-designed, lightweight dynamo.
- Sanyo original mechanism greatly reduces torque for light pedaling effort.
- Roller comes in contact with tire tread so that it can be used on any bike tire including open-side tires.
- Rigid, low-revolution dynamo produces low operation noise.
- Standard speed is set at 20km/h to match sporty bicycles. Bulb burn-out is prevented by suppressing voltage increase at high speed.
- Dirt splashing is minimized by special cover over the roller.
- Dynamo can be installed under the frame so that it will not spoil bike appearance.
- New lens pattern is employed to increase lighting efficiency.
- Rust-resistant light alloy, stainless steel and chrome parts.
- Nicely matches any sporty bicycle.

SPECIFICATIONS

Dynamo

Model No.	NH-T-6
Output	6V-3W (20 km/h)
Structure	4-pole rotary field type
Weight	8 ozs. (228 g)
Dimensions	2-11/16" (W) x 2-3/4" (D) x 3-3/4" (H) (68 x 69 x 95mm)
Starting torque	55 g-cm
Roller revolution	3,032 rpm (20 km/h)
Roller diameter	35mm (chrome plated)
Locking lever	Aluminum alloy die-cast
Accessories	Dynamo attaching wrench

Headlight

Type	FF-type (for fork) F-type (for fender)
Bulb	6V-3W blub (auxiliary bulb provided)
Weight	1.57 ozs. 1.64 ozs. (44.5g) (46.5g)
Dimensions	2" (φ) x 2-7/16" (L) (51 x 62mm)
Head case	Light alloy (alumite treated)
Reflector	Polycarbonate resin
Lens	Acrylic resin (new light distribution pattern)
Accessories	Cord (1,000mm), securing tape
